ABDUL YAHIYA

Software Development Engineer | Java | C++ | Data Structures & Algorithms | Full Stack Development

+91-9973914185 | abdulyahya9973@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

B.Tech Computer Science graduate (2026) with a strong foundation in Java, Data Structures & Algorithms, and object-oriented problem-solving, backed by hands-on software engineering experience across the stack. Skilled in designing REST APIs, building microservices, and delivering end-to-end features in fast-paced, collaborative team settings. Comfortable ramping quickly on new systems and codebases, with a track record of taking ownership of features from design through delivery.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), C++, JavaScript, SQL, HTML, CSS
Core CS: Data Structures & Algorithms, Object-Oriented Design, Problem-Solving, Complexity Analysis
Backend & APIs: Node.js, Express.js, Spring Boot, Spring MVC, Hibernate (JPA), REST APIs, Microservices
Frontend: React.js, Tailwind CSS, Responsive UI
Databases: MySQL, PostgreSQL, MongoDB
Tools & Practices: Git/GitHub, VS Code, Postman, Selenium, JWT Authentication, Agile/Scrum, Cross-functional Collaboration

PROJECTS

FounderLink

React.js, TypeScript, Spring Boot, Microservices, PostgreSQL, Razorpay • Feb – Apr 2026

- Designed a multi-role startup platform for founders, investors, co-founders, and admins with role-based dashboards, coordinating feature scope and API contracts across frontend and backend components.
- Built modular service clients to integrate startup, team, auth, messaging, notification, and profile REST APIs with JWT-based authentication.
- Implemented a Razorpay payment and investment flow covering order creation, payment verification, founder approval, and backend routing.

ChatApp

MERN Stack, Socket.IO • May – Jul 2025

- Developed a real-time chat application using the MERN stack and Socket.IO, with user authentication backed by MongoDB.
- Implemented secure JWT-based authentication and integrated Cloudinary for real-time image sharing in chat.
- Built a responsive UI with React and Tailwind CSS; used Zustand for state management and Express for RESTful backend APIs.

E-commerce Platform

React.js, JavaScript, HTML, CSS • Sep – Dec 2024

- Built a feature-rich e-commerce app with secure authentication, shopping cart, and order processing, plus a dynamic admin dashboard for products, users, and transactions.
- Engineered a role-based admin panel for order/user tracking with live order-status updates.
- Validated performance and scalability with 100+ simulated users, collaborating on test plans and using Postman and Selenium for API and UI verification.

TRAINING

Data Structures & Algorithms using C++

GeeksforGeeks (EdTech) • May – Jul 2024

- Completed a full DSA curriculum: arrays, linked lists, stacks, queues, trees, graphs, sorting, searching, and optimization, through hands-on practical sessions.
- Strengthened understanding of dynamic programming, graph algorithms, and time-space complexity analysis through applied practice.
- Solved competitive programming challenges individually and in peer study groups to develop efficient, collaborative problem-solving skills.

CERTIFICATIONS

- Internet of Things (IoT) — NPTEL (Feb – May 2025)
- Data Structures & Algorithms using C++ — GeeksforGeeks (May – Jul 2024)
- Mastering Data Structures & Algorithms using C and C++ — Udemy (Jan – Apr 2024)
- HTML, CSS and JavaScript for Web Developers — Coursera (Oct – Dec 2024)

EDUCATION

Lovely Professional University — B.Tech, Computer Science and Engineering
CGPA: 7.9/10 | Phagwara, Punjab • Sep 2022 – 2026

CMJ Institute of Education — Intermediate (PCM)
Percentage: 74.6% | Motihari, Bihar • Apr 2018 – Mar 2020

MS Memorial Public School — Matriculation
Percentage: 73% | Motihari, Bihar • Apr 2017 – Mar 2018
